

Sunday, December 2nd - Tour Program

07:00	Meet at Arlozorov bus station	Leave Arlozorov Station
10:00-12:00	Visit Ashalim Solar Power Station: the Solar Tower site and the parabolic trough site	<p>The partners in the Ashalim project are the companies Megalim and Negev Energy Ltd.</p> <p>The station supplies 250 megawatts, combining three technologies for generating electricity: a thermo-solar parabolic trough plant with thermal storage, a CPV solar tower and a photovoltaic power station. The biggest solar site in Israel.</p>
12:00-13:00	Rotem Industrial Park: Visit Brenmiller experimental site including a demonstration.	<p>Brenmiller company has developed a new way to store energy at a competitive price, with high efficiency and environmentally friendly. The unique technology enables the storage of energy at high temperatures (up to 500 degrees) and provides a wide range of energy solutions for the distributed electricity market.</p>
13:00-13:30	Lunch Break	
16:00-17:30	Off-Grid Demonstration Village for off-grid technologies: meet representatives of start-up companies.	<p>The 'Eilat-Eilat' demonstration village serves as a platform for Israeli and international technology companies to develop relevant technologies areas lacking infrastructure. The village is a demonstration, experimenting and marketing center for technologies, as well as a training center for the use of technologies and the creation of business models for the off-grid world.</p>
18:00-19:00	Cocktail	A reception and light dinner
20:00	Arrive at hotels in Eilat
